

# NICKS UK TRACK DAYS

We are trying to organise some UK Track Days driving the awesome Mitsubishi Evo VII RS and the stunning Subaru Impreza WRX. We have found a company in the UK willing to hire us these cars, with AARDS instructors, at most circuits of our choice within the UK.

The package will include :

1. airfares to and from the UK
2. transfers from airport to hotel
3. hotel accommodation
4. transfers to and from the circuit
5. Arrive & Drive package in both cars

The overall cost is likely to be in the region of CY£700 or 1200 Euros. The final cost is dependant upon the track we select and the airfares that we can find. There will also be a small difference dependant on whether one or two people share a hotel room. This price is based upon 10 persons taking part.
